Bajaj Allianz Life Group Accelerated Critical Illness Rider

A Non-Linked, Non-Participating, Group Health Rider

Bajaj Allianz Life Group Accelerated Critical Illness Rider

A Non-Linked, Non-Participating, Group Health Rider

Bajaj Allianz Life Group Accelerated Critical Illness Rider

Your members can face a financial crunch if an unfortunate event strikes, like a critical illness. Keeping this concern in mind we present Bajaj Allianz Life Group Accelerated Critical Illness Rider to provide your members the reassurance of a lasting financial security and peace of mind. Bajaj Allianz Life Group Accelerated Critical Illness Rider financially protects your members in case of occurrence of the covered critical illnesses. This ensures availability of money when needed the most.

Rider Benefit

Group Accelerated Critical Illness Rider is a non-linked, non-participating, group health rider. On diagnosis of any of the covered 11 critical illnesses of member or the first of the joint members, an amount equal to the Rider Sum Assured is payable.

If Rider Sum Assured is equal to Sum Assured under the base policy, then the risk-cover for the member under the base policy, including the rider, will terminate after the critical illness benefit is paid.

If Rider Sum Assured is less than the Sum Assured under the base policy, then, the rider cover will terminate but the risk cover for the member and joint members, if any, under the base policy will continue for the balance Sum Assured.

The rider benefit can be taken in instalments, if allowed under the base policy, and shall be as per the base policy.

Maturity Benefit

There is no maturity benefit under the rider.

Important Details of the Bajaj Allianz Life Group Accelerated Critical Illness Rider

Parameter	Details
Minimum Entry Age	18 years In case of joint life the younger life should have attained the minimum age.
Maximum Entry Age	69 years In case of joint life the older life should be within the maximum attained age.
Minimum Maturity Age	19 years
Maximum Maturity Age	70 years
Maximum Renewal Age	69 years
Minimum Rider Sum Assured	As per base policy
Maximum Rider Sum Assured	As per base policy Note that the maximum cover will be subject to any limit/condition as per the prevailing Board Approved Underwriting Policy of Company and/or subject to the Accelerated CI Sum Assured not exceeding the Sum Assured under the base policy.
Rider Premium Payment Term	As per base policy
Rider Term	As per base policy
Premium Payment Frequency	As per base policy

Rider Premium

Rider Premium would be collected over and above the base policy premium and it would be based on age at entry of the member/joint member rider sum assured nature of the group and members occupation classification as applicable to the base policy.

Joint life premium rates (for lives aged x and y) where the critical illness benefit is payable only on first occurrence of critical illness will be 90% of the sum of the individual premium rates for lives aged x and y.

The premium rates are guaranteed throughout the membership term of the member.

Inclusion / Exclusion of Rider

- Your member will have the option to include/exclude this rider from any membership anniversary through master policy.
- In case of exclusion, the Rider Benefit will immediately cease and no further rider premium will be collected. Once this rider is excluded, it can be added back again on any subsequent annual renewal date, subject to underwriting.

Non-Payment of Premiums

- If Rider Premium is not paid before the expiry of the Grace Period, the Rider will lapse immediately and no benefit with respect to the Rider will be payable.
- On occurrence of Critical Illness during the Grace Period, the Critical Illness Benefit shall be payable subject to deduction of due but unpaid Rider Premium.

Definitions

Following Critical Illness are covered under this benefit:

(1) CANCER OF SPECIFIED SEVERITY

A malignant tumour characterised by the uncontrolled growth & spread of malignant cells with invasion & destruction of normal tissues. This diagnosis must be supported by histological evidence of malignancy. The term cancer includes leukemia, lymphoma and sarcoma.

The following are excluded –

- (i) All tumors which are histologically described as carcinoma in situ, benign, pre-malignant, borderline malignant, low malignant potential, neoplasm of unknown behavior, or non-invasive, including but not limited to: Carcinoma in situ of breasts, Cervical dysplasia CIN-1, CIN - 2 and CIN-3;
- (ii) Any non-melanoma skin carcinoma unless there is evidence of metastases to lymph nodes or beyond;
- (iii) Malignant melanoma that has not caused invasion beyond the epidermis;
- (iv) All tumors of the prostate unless histologically classified as having a Gleason score greater than 6 or having progressed to at least clinical TNM classification T2N0M0;
- (v) All Thyroid cancers histologically classified as T1N0M0 (TNM Classification) or below
- (vi) Chronic lymphocytic leukaemia less than Rai stage 3;
- (vii) Non-invasive papillary cancer of the bladder histologically described as TaN0M0 or of a lesser classification;
- (viii) All Gastro-Intestinal Stromal Tumors histologically classified as T1N0M0 (TNM Classification) or below and with mitotic count of less than or equal to 5/50 HPFs;
- (ix) All tumours in the presence of HIV infection.

(2) FIRST HEART ATTACK – OF SPECIFIED SEVERITY

The first occurrence of heart attack or myocardial infarction which means the death of a portion of the heart muscle as a result of inadequate blood supply to the relevant area. The diagnosis for this will be evidenced by all of the following criteria:

- (i) a history of typical clinical symptoms consistent with the diagnosis of Acute Myocardial Infarction (for e.g. typical chest pain);
- (ii) new characteristic electrocardiogram changes;
- (iii) elevation of infarction specific enzymes, Troponins or other specific biochemical markers.

The following are excluded:

- (a) Other acute Coronary Syndromes
- (b) Any type of angina pectoris.
- (c) A rise in cardiac biomarkers or Troponin T or I in absence of overt ischemic heart disease OR following an intra-arterial cardiac procedure.

(3) OPEN CHEST CABG

The actual undergoing of heart surgery to correct blockage or narrowing in one or more coronary artery(s), by coronary artery bypass grafting done via a sternotomy (cutting through the breast bone) or minimally invasive keyhole coronary artery bypass procedures. The diagnosis must be supported by a coronary angiography and the realization of surgery has to be confirmed by a cardiologist.

The following are excluded:

- (i) Angioplasty and/or any other intra-arterial procedures

(4) KIDNEY FAILURE REQUIRING REGULAR DIALYSIS

End stage renal disease presenting as chronic irreversible failure of both kidneys to function, as a result of which either regular renal dialysis (hemodialysis or peritoneal dialysis) is instituted or renal transplantation is carried out. Diagnosis has to be confirmed by a specialist medical practitioner.

(5) STROKE RESULTING IN PERMANENT SYMPTOMS

Any cerebrovascular incident producing permanent neurological sequelae. This includes infarction of brain tissue, thrombosis in an intracranial vessel, haemorrhage and embolisation from an extracranial source. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT Scan or MRI of the brain. Evidence of permanent neurological deficit lasting for at least 3 months has to be produced.

The following are excluded:

- (i) Transient ischemic attacks (TIA);
- (ii) Traumatic injury of the brain;
- (iii) Vascular disease affecting only the eye or optic nerve or vestibular functions.

(6) MAJOR ORGAN /BONE MARROW TRANSPLANT

The actual undergoing of a transplant of: (i) One of the following human organs: heart, lung, liver, kidney, pancreas, that resulted from irreversible end-stage failure of the relevant organ, or (ii) Human bone marrow using haematopoietic stem cells. The undergoing of a transplant has to be confirmed by a specialist medical practitioner.

The following are excluded: (i) Other stem-cell transplants; (ii) Where only islets of langerhans are transplanted.

(7) PERMANENT PARALYSIS OF LIMBS

Total and irreversible loss of use of two or more limbs as a result of injury or disease of the brain or spinal cord. A specialist medical practitioner must be of the opinion that the paralysis will be permanent with no hope of recovery and must be present for more than 3 months.

(8) MULTIPLE SCLEROSIS WITH PERSISTING SYMPTOMS

The unequivocal diagnosis of Definite Multiple Sclerosis confirmed and evidenced by all of the following:

- (i) investigations including typical MRI findings which unequivocally confirm the diagnosis to be multiple sclerosis and
- (ii) there must be current clinical impairment of motor or sensory function, which must have persisted for a continuous period of at least 6 months.

Other causes of neurological damage such as SLE and HIV are excluded.

(9) AORTIC SURGERY

The undergoing of surgery to treat narrowing, obstruction, aneurysm or dissection of the aorta. Minimally invasive procedures like endovascular repair are covered under this definition. The surgery must be determined to be medically necessary by a Consultant Surgeon and supported by imaging findings.

For the above definition, the following are not covered:

- (i) Surgery to any branches of the thoracic or abdominal aorta (including aortofemoral or aortoiliac bypass grafts)
- (ii) Surgery of the aorta related to hereditary connective tissue disorders (e.g. Marfan syndrome, Ehlers–Danlos syndrome)
- (iii) Surgery following traumatic injury to the aorta

(10) PRIMARY PULMONARY HYPERTENSION

An unequivocal diagnosis of primary (Idiopathic) pulmonary hypertension by a Cardiologist or specialist in respiratory medicine with evidence of right ventricular enlargement and the pulmonary artery pressure above 30 mm of Hg on Cardiac Catheterization. There must be permanent irreversible physical impairment to the degree of at least Class IV of the New York Heart Association Classification of cardiac impairment.

The NYHA Classification of Cardiac Impairment are as follows:

- i. Class III: Marked limitation of physical activity. Comfortable at rest, but less than ordinary activity causes symptoms.
- ii. Class IV: Unable to engage in any physical activity without discomfort. Symptoms may be present even at rest.

Pulmonary hypertension associated with lung disease, chronic hypoventilation, pulmonary thromboembolic disease, drugs and toxins, diseases of the left side of the heart, congenital heart disease and any secondary cause are specifically excluded.

(11) ALZHEIMER'S DISEASE

Progressive and permanent deterioration of memory and intellectual capacity as evidenced by accepted standardised questionnaires and cerebral imaging.

The diagnosis of Alzheimer's disease must be confirmed by a specialised medical practitioner. There must be significant reduction in mental and social functioning requiring the continuous supervision of the life assured. There must also be an inability of the Life Assured to perform (whether aided or unaided) at least three (3) of the following six (6)

"Activities of Daily Living" for a continuous period of at least three (3) months.

Activities of Daily Living are defined as: (a) Washing - the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means; (b) Dressing - the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, or artificial limbs or other surgical appliances; (c) Transferring - the ability to move from a bed to an upright chair or wheelchair and vice versa; (d) Toileting - the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene; (e) Feeding - the ability to feed oneself once food has been prepared and made available. (f) Mobility - the ability to move from room to room without requiring any physical assistance.

The following are excluded: (i) Drug-induced or toxic causes of Parkinsonism; (ii) Any other type of irreversible organic disorder/dementia; (iii) Non-organic disease such as neurosis and psychiatric illnesses; and (iv) Alcohol-related brain damage.

Grace Period

As per base policy.

Exclusions

The critical illness benefit shall not be paid on any of the lives covered in case of the following conditions:

- If the diagnosis of such CI was made within 90 days of the start of coverage (i.e. during the waiting period). This
- would not be applicable on consecutive renewal of the CI cover for the member with the company;

Bajaj Allianz Life

Group Accelerated Critical Illness Rider

A Non-Linked, Non-Participating, Group Health Rider

- If the insured dies within 30 days of the diagnosis of the covered CI;
- Pre-Existing Disease: Pre-existing Disease means any condition, ailment, injury or disease: a) That is/are diagnosed by a physician within 48 months prior to the effective date of the policy issued by the insurer or b) For which medical advice or treatment was recommended by, or received from, a physician within 48 months prior to the effective date of the policy or its reinstatement.
- Intentional self-inflicted injury, suicide or attempted suicide.
- For any medical conditions suffered by the life assured or any medical procedure undergone by the life assured, if that medical condition or that medical procedure was caused directly or indirectly by influence of drugs, alcohol, narcotics or psychotropic substances unless taken in accordance with the lawful directions and prescriptions of a registered medical practitioner.
- Engaging in or taking part in hazardous activities*, including but not limited to, diving or riding or any kind of race; martial arts; hunting; mountaineering; parachuting; bungee-jumping; underwater activities involving the use of breathing apparatus or not; Hazardous Activities mean any sport or pursuit or hobby, which is potentially dangerous to the Insured Member whether he is trained or not;
- Participation by the insured person in a criminal or unlawful act with criminal intent;
- For any medical condition or any medical procedure arising from nuclear contamination; the radioactive, explosive or hazardous nature of nuclear fuel materials or property contaminated by nuclear fuel materials or accident arising from such nature;
- For any medical condition or any medical procedure arising either as a result of war, invasion, act of foreign enemy, hostilities (whether war be declared or not), armed or unarmed truce, civil war, mutiny, rebellion, revolution, insurrection, terrorism, military or usurped power, riot or civil commotion, strikes or participation in any naval, military or air force operation during peace time;
- For any medical condition or any medical procedure arising from participation by the insured person in any flying activity, except as a bona fide, fare-paying passenger and aviation industry employee like pilot or cabin crew of a recognized airline on regular routes and on a scheduled timetable.
- Any External Congenital Anomaly which is not as a consequence of Genetic disorder
- Failure to seek medical advice or treatment by a medical practitioner leading to occurrence of the insured event.

Termination

The rider will terminate on the life of the member or both the joint life members in case joint life cover was opted, on the earlier occurrence of either of the following events:

- if premiums are discontinued under the base policy
- if the member through policyholder opts out of the rider option
- on maturity or termination of the base group policy
- on payment of Critical Illness Benefit
- on payment of death benefit under the policy
- if membership ceases under base group policy
- on exclusion of the rider by the member through policyholder
- on the Membership anniversary on which the attained age is the maximum cover ceasing age allowed under the rider.

In the event the Rider Sum Assured is equal to the Base Sum Assured, on Payment of the Accelerated Critical Sum Assured amount, the Base Policy shall also be terminated, along with other accelerated benefits, if any.

Free Look Period

As per base policy but will be applicable from the Date of Commencement of Rider, if different from the Date of Commencement of Risk (of the base Policy).
