The Policyholder, at the Policy Commencement Date as well as any Policy Anniversary, will have option to choose from any one of the following four (4) Portfolio Strategies under this Policy:

b) Wheel of Life Portfolio Strategy

Under this Portfolio Strategy, the Company will allocate the Regular Premiums and the Top Up Premiums, if any, paid by the Policyholder after applying the Premium Allocation Rate, and reallocate the Regular Premium Fund Value and the Top Up Premium Fund Value, if any, at each Policy Anniversary into the various Funds mentioned below, based on the Years to Maturity (as on the last Policy Anniversary) as per the table below.

The Policyholder, at the Policy Commencement Date or can switch to this Portfolio Strategy at any subsequent Policy Anniversary by giving a written notice to the Company thirty (30) days in advance.

If the Policyholder has switched to this Portfolio Strategy at any subsequent Policy Anniversary, the Company will reallocate the available Regular Premium Fund Value and Top Up Premium Fund Value, if any, among various Funds in the proportion mentioned in the table above depending on the outstanding “years to maturity” of the Policy. The Regular Premiums and Top Up Premiums, if any, paid will also be allocated in to the Funds in the proportion mentioned in the table above depending on the outstanding “years to maturity” of the Policy.

On each Policy Anniversary, the Company will reallocate the available Regular Premium Fund Value and Top Up Premium Fund Value, if any, among various Funds in the proportion based on the outstanding years to maturity of the Policy to ensure balance is maintained between the Policyholder’s “years to maturity” and level of risk on investments to optimize the returns. All allocation & de-allocations of Units shall be based on the prevailing Unit Price.

The Policyholder further understands and agrees that the proportion in the various Funds may change during a Policy Year from the allocation proportions mentioned in the relevant table above for reasons including fluctuations in the Unit Price.

The Policyholder understands and agrees that in accordance with the Portfolio Strategy, as mentioned above, the Company may also switch Units between the various Funds at the prevailing Unit Price of the respective Funds.

The policyholder will not have the option to switch Units or change the apportionment of premium to various funds under the Wheel of life Portfolio Strategy.

The Policyholder can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the Company 30 days in advance in case of Partial withdrawal, the withdrawal of units from each fund will be done in the same proportion as the value of the Units held in that Fund as on date of withdrawal. The Policyholder will not have any choice to opt the fund from which the partial withdrawal of units is to be done.

The Company may change the proportions as may be applicable under the Portfolio Strategy with the prior approval of the IRDAI.

The Policyholder can opt for this Portfolio Strategy at the commencement of the Policy:

Under this Portfolio Strategy, Regular Premium and the Top up Premium, if any, (after any Premium Allocation Charge) will be allocated between two funds, Equity Growth Fund II (an equity oriented fund), and Bond Fund (a debt oriented fund), in a 75%: 25% proportion.

The Fund Value proportions may subsequently get altered due to market movements. On the pre-defined trigger event mentioned below, the Funds will be re-balanced or reallocated.

The trigger event is a 15% upward movement in Unit Price of Equity Growth Fund II, since the previous rebalancing or from the Unit Price at the Policy Commencement Date, whichever is later.
v. On the occurrence of the trigger event, any value of Units in Equity Growth Fund II which is in excess of three (3) times the value of units in Bond Fund is considered as gains and is switched to the Liquid Fund - by redemption of appropriate Units from Equity Growth Fund II.

vi. This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Equity Growth Fund II and Bond Fund at 75%-25%.

vii. The Policyholder can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the Company 30 days in advance.

d) Auto Transfer Portfolio Strategy
i. The Policyholder can opt for this Portfolio Strategy at the commencement of the Policy or can switch to this Portfolio Strategy at any subsequent Policy Anniversary by giving a written notice to the Company 30 days in advance.

ii. Under this Portfolio Strategy, Regular Premium and the Top up Premium, if any, (after any Premium Allocation Charge) will be allocated in the Bond Fund and/or Liquid Fund, as decided by the Policyholder.

iii. At the start of each monthly anniversary of the Policy, a proportion [as mentioned in the below table] of the Fund Value in the Bond Fund and/or Liquid Fund as on that date will be switched to the other Fund/s (available in the product) as specified by the Policyholder

iv. The proportion to be switched will depend upon the number of outstanding months till the next premium due date. The proportion would be mentioned as below:

<table>

vi. The Policyholder can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the Company 30 days in advance.

13. Force Ma'jeure Condition
a) The Company will value the Funds on each day that the financial markets are open. However, the Company may value the Funds less frequently in extreme circumstances external to the Company, where the value of the assets is too uncertain. In such circumstances, the Company may defer the valuation of assets for up to 30 days until the Company feels that certainty as to the value of assets has been resumed. The devaluation of the return on assets will be with prior approval with the IRDAI.

b) The Company will make investments as per the Fund Mandate in Section 15 below. However, the Company reserves the right to change the exposure of all/any Fund to money market instruments to 100% only in extreme situations external to the Company, keeping in view market conditions, political, economic and other factors. The same will be put back as per the base mandate once the situation has corrected.

c) Some examples of such circumstances [in Sub-Section a) & Sub-Section b) above] are:

i) When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed otherwise than for ordinary holidays.

ii) When, as a result of political, economic, monetary or any circumstances out of the control of the Company, the disposal of the assets of the Fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining Policyholders.

iii) During periods of extreme market volatility during which surrenders and switches would, in the opinion of the Company, be detrimental to the interests of the remaining policyholders.

iv) In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.

v) In the event of any force majeure or disaster that affects the normal functioning of the Company.

vi) If so directed by the IRDAI.

d) The Policyholder shall be notified of such a situation if it arises.

14. Fund Management
All the Funds will be internally managed by the Company.
