- If you have opted for this Portfolio Strategy at the commencement of the Policy, the Regular/Limited Premium and the Top up Premium, if any, would be allocated in the Funds mentioned (namely Equity Growth Fund II, Accelerator Mid-Cap Fund II, Bond Fund & Liquid Fund) in the proportion as mentioned in the table below, depending on the outstanding years to maturity.
- If you have switched to this Portfolio Strategy at any subsequent Policy Anniversary:
 - The company will reallocate the Regular Premium Fund value and Top up Premium Fund value among various Funds in the proportion mentioned in the table below depending on the outstanding years to maturity of the Policy.
 - The Regular/Limited Premiums and Top up Premiums, if any paid in that particular Policy year will also be allocated in the same proportion.
- On each Policy Anniversary, the company will reallocate the Regular Premium Fund value and Top up Premium Fund value among various Funds in the proportion based on the outstanding years to maturity of the Policy.
- All allocation & de-allocations of units shall be based on the prevailing unit price/NAV.
- This will ensure that a balance is maintained between the Policyholder’s “years to maturity” and level of risk on investments to optimize the returns.
- The Premium (Regular/Limited and Top up Premium, if any) and Fund value (Regular Premium Fund value and Top up Premium Fund value) allocation/reallocation will be as follows:

- You can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the Company 30 days in advance.
- In case of Partial withdrawal, the withdrawal of units from each Fund will be done in the same proportion as the value of the Units held in that Fund as on date of withdrawal. You will not have any choice to opt the Fund from which the partial withdrawal of units is to be done.

c) Trigger Based Portfolio Strategy II:

- You can opt for this Portfolio Strategy at the commencement of the Policy
- Under this Portfolio Strategy, Regular/Limited Premium and Top up Premiums if any, (after any Premium Allocation charge) will be allocated between two Funds, Equity Growth Fund II (an equity-oriented Fund), and Bond Fund (a debt-oriented Fund), in a 75%: 25% proportion.
- The Fund value proportions may subsequently get altered due to market movements. On the pre-defined trigger event mentioned below, the Funds will be re-balanced or reallocated.
- The trigger event is a 15% upward or downward movement in unit price/NAV of Equity Growth Fund II or in the unit price/NAV of the Bond Fund, since the previous rebalancing or from the unit price/NAV at the inception of the Policy, whichever is later.
- On the occurrence of the trigger event of 15% upward movement with respect to:
 - The Equity Growth Fund II, any value of units in Equity Growth Fund II which is in excess of three times the value of units in Bond Fund is considered as gains and is switched to the Liquid Fund - by redemption of appropriate units from Equity Growth Fund II.
 - The Bond Fund, any value of units in Bond Fund which is in excess of three times the value of units in Equity Growth Fund II is considered as gains and is switched to the Liquid Fund - by redemption of appropriate units from Bond Fund.
- On the occurrence of the trigger event of 15% downward movement with respect to the Equity Growth Fund II or the Bond Fund, units in the Liquid Fund, if any, will be switched to the Equity Growth Fund II and the Bond Fund such that, after transfer, the ratio of the value of units in the Equity Growth Fund II to that in the Bond Fund is restored to 75%:25%, to the extent possible and subject to availability of units in the Liquid Fund.
- This ensures that such gains are capitalized and protected from future equity market fluctuations, while maintaining the asset allocation between Equity Growth Fund II and Bond Fund at 75%:25%.
- You can switch out of this Portfolio Strategy at any Policy Anniversary by giving a written notice to the company 30 days in advance.

d) Auto Transfer Portfolio Strategy:

- This strategy helps you to invest your money in a systematic way by automatically transferring your money every month, from low risk Fund to Fund(s) of your choice.
- You can opt for this Portfolio Strategy at the commencement of the Policy or can switch to this Portfolio Strategy at any subsequent Policy Anniversary by giving a written notice to the Company 30 days in advance.
- In this Portfolio Strategy, your Premium will be allocated in Bond Fund and / or Liquid Fund, as specified by you
- At the start of each monthly anniversary of the Policy, a proportion (as mentioned below) of Fund value in the Bond Fund and/or Liquid Fund as on that date will be switched to the other Fund/s (available in the plan) as specified by you.
- The proportion to be switched will depend upon the number of outstanding months till the next Premium due date. The proportion would be as mentioned below:

Outstanding no. of months till the next Premium due date	11	10	9	8	7	6	5	4	3	2	1
Proportion of Fund value	1/11	1/10	1/9	1/8	1/7	1/6	1/5	1/4	1/3	1/2	1

- You can opt out of this Portfolio Strategy at any subsequent Policy Anniversary by giving a written notice to the Company 30 days in advance.

e) Capital Preservation-Oriented Strategy:

- This strategy can be opted only at the inception of the Policy. This strategy can be opted only if Policy term is at least 10 years, and the minimum difference between the Policy term and Premium payment term is at least 5 years
- The objective of the strategy is to optimise risk and return, by investing across five pre-determined Funds, which are a mix of very high to low risk Funds, in such a way that the monies invested over the years along with the accumulated returns are subjected to lesser market volatility, in the years closer to maturity. However, the strategy does not provide any minimum guaranteed maturity benefit.
- Under this strategy, at the commencement of the policy, the Regular Premium and the Top Up premium, if any, would be allocated in the Funds mentioned (namely Equity Growth Fund II, Accelerator Mid-Cap Fund II, Pure Stock Fund II, Bond Fund & Liquid Fund) in the proportion as mentioned in the table below.
- At each policy anniversary, the Company will reallocate the Fund Value among various funds in the proportion based on the table below, depending on the outstanding years to maturity

Years to Maturity	Equity Growth Fund II	Accelerator Mid-Cap Fund II	Pure Stock Fund II	Bond Fund	Liquid Fund	Total
10 & Above	40%	15%	15%	30%	0%	100%
