Products allowed with this Rider

Please consult your Insurance Consultant or refer the Company website about the products under which this rider is available.

Rider Premium Charge

Rider Premium Charge will be deducted by way of charges from the fund value of the base policy on each monthly due date of charge. The charge is based on the age of the Rider Life Assured and Rider Sum Assured as on the monthly due date.

Inclusion / Exclusion of Rider

You will have the option to include the rider only at the inception of the policy. Inclusion of the rider will be subject to underwriting.

The rider can be excluded anytime during the policy term of the rider. In case of exclusion, the rider benefit will immediately cease and no further rider charge will be deducted. Once this rider is excluded, it cannot be added back.

Free Look Period

Within 15 days [30 days in case this Policy is issued under the provisions of IRDAI Guidelines on Distance Marketing of Insurance Products] of the receipt of this Rider, you may, if dissatisfied with any of the terms and conditions for any reason, give the Company a written notice of cancellation along with reasons for the same, and return the Rider Document to the Company, subject to which the Company shall reverse the rider charges to the unit account after deduction of proportionate rider charge for the period of rider cover, expenses incurred on medical examination, if any, and stamp duty charges, if any

Definitions

i. Rider Life Assured is the person whose life is assured under this Rider

ii. Critical illnesses covered

1. CANCER OF SPECIFIED SEVERITY

A malignant tumour characterised by the uncontrolled growth & spread of malignant cells with invasion & destruction of normal tissues. This diagnosis must be supported by histological evidence of malignancy & confirmed by a pathologist. The term cancer includes leukaemia, lymphoma and sarcoma.

The following are excluded:

(i) Tumours showing the malignant changes of carcinoma in situ & tumours which are histologically described as premalignant or non-invasive, including but not limited to: Carcinoma in situ of breasts, Cervical dysplasia CIN-1, CIN-2 & CIN-3; (ii) Any skin cancer other than invasive malignant melanoma; (iii) All tumours of the prostate unless histologically classified as having a Gleason score greater than 6 or having progressed to at least clinical TNM classification T2N0M0; (iv) Papillary micro - carcinoma of the thyroid less than 1 cm in diameter; (v) Chronic lymphocytic leukaemia less than Rai stage 3; (vi) Microcarcinoma of the bladder; (vii) All tumours in the presence of HIV infection.

RECONSTRUCTIVE BREAST SURGERY (only for Female Life)

If the rider life assured is diagnosed as suffering from breast cancer as defined above under "Cancer", and the same is intimated to the company within 30 days of diagnosis, an additional benefit amount of 30% (thirty percentage) of the sum assured under the Rider will be payable to her for Reconstructive breast surgery. This payment will be made on the diagnosis of the breast cancer and it being confirmed by an oncologist supported by surgical, clinical, radiological, histological and laboratory evidence acceptable to the company.

2. FIRST HEART ATTACK – OF SPECIFIED SEVERITY

The first occurrence of myocardial infarction which means the death of a portion of the heart muscle as a result of inadequate blood supply to the relevant area. The diagnosis for this will be evidenced by all of the following criteria:

(i) a history of typical clinical symptoms consistent with the diagnosis of Acute Myocardial Infarction (for e.g. typical chest pain); (ii) new characteristic electrocardiogram changes; (iii) elevation of infarction specific enzymes, Troponins or other specific biochemical markers.

The following are excluded: (a) Non-ST-segment elevation myocardial infarction (NSTEMI) with elevation of Troponin I or T (b) Other acute Coronary Syndromes (c) Any type of angina pectoris.

3. OPEN CHEST CABG

The actual undergoing of open chest surgery for the correction of one or more coronary arteries, which is/are narrowed or blocked, by Coronary Artery Bypass Graft (CABG). The diagnosis must be supported by a coronary angiography and the realization of surgery has to be confirmed by a specialist medical practitioner.

Excluded are: (i) Angioplasty and/or any other intra-arterial procedures; (ii) any key-hole or laser surgery.

4. KIDNEY FAILURE REQUIRING REGULAR DIALYSIS

End stage renal disease presenting as chronic irreversible failure of both kidneys to function, as a result of which either regular renal dialysis (haemodialysis or peritoneal dialysis) is instituted or renal transplantation is carried out. Diagnosis has to be confirmed by a specialist medical practitioner.

5. STROKE RESULTING IN PERMANENT SYMPTOMS

Any cerebrovascular incident producing permanent neurological sequelae. This includes infarction of brain tissue, thrombosis in an intracranial vessel, haemorrhage and embolisation from an extracranial source. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT Scan or MRI of the brain. Evidence of permanent neurological deficit lasting for at least 3 months has to be produced. The following are excluded: (i) Transient ischemic attacks (TIA); (ii) Traumatic injury of the brain; (iii) Vascular disease affecting only the eye or optic nerve or vestibular functions.

6. MAJOR ORGAN/BONE MARROW TRANSPLANT

The actual undergoing of a transplant of: (i) One of the following human organs: heart, lung, liver, kidney, pancreas, that resulted from irreversible end-stage failure of the relevant organ, or (ii) Human bone marrow using haematopoietic stem cells. The undergoing of a transplant has to be confirmed by a specialist medical practitioner.

The following are excluded: (i) Other stem-cell transplants; (ii) Where only islets of langerhans are transplanted.

7. PERMANENT PARALYSIS OF LIMBS

Total and irreversible loss of use of two or more limbs as a result of injury or disease of the brain or spinal cord. A specialist medical practitioner must be of the opinion that the paralysis will be permanent with no hope of recovery and must be present for more than 3 months.

8. MULTIPLE SCLEROSIS WITH PERSISTING SYMPTOMS

The definite occurrence of multiple sclerosis. The diagnosis must be supported by all of the following:

(i) investigations including typical MRI and CSF findings, which unequivocally confirm the diagnosis to be multiple sclerosis;

(ii) there must be current clinical impairment of motor or sensory function, which must have persisted for a continuous period of at least 6 months, and

(iii) well documented clinical history of exacerbations and remissions of said symptoms or neurological deficits with at least two clinically documented episodes at least one month apart. Other causes of neurological damage such as SLE and HIV are excluded.

9. AORTIC SURGERY

The undergoing of surgery to correct any narrowing, dissection, obstruction or aneurysm of the thoracic or abdominal aorta, but not its branches.

The surgery must be considered medically necessary by a recognized consultant cardiologist and must be the most appropriate treatment.

All minimally invasive procedures such as keyhole, catheter, laser, angioplasty or other intra-arterial techniques are excluded.

Congenital narrowing of the aorta and traumatic injury of the aorta are specifically excluded.

10. PRIMARY PULMONARY HYPERTENSION

Means primary pulmonary hypertension associated with right ventricular enlargement established by cardiac catheterisation, resulting in significant permanent physical impairment to the degree of at least Class 3 of the NEW YORK Heart Association Classification of cardiac impairment and resulting in the Rider Life Assured being unable to perform his/her usual occupation. The condition must be documented for at least three consecutive months.

11. ALZHEIMER'S DISEASE

Means the unequivocal diagnosis of Alzheimer's disease made by a recognized consultant neurologist holding an appointment in this capacity at a major hospital and supported by clinical evidence and standardized testing. The diagnosis must confirm permanent failure of brain function resulting in significant cognitive impairment.

Significant cognitive impairment is defined as a deterioration or loss of intellectual capacity to the extent that it results in the requirement for continual supervision.

Alzheimer's disease resulting from the following is excluded: (i) Alcohol or drug abuse; and (ii) Non-organic diseases such as neurosis or psychiatric illness.

Note -

- The Critical Illness benefit can be triggered after the waiting period of 90 days from the inception or latest revival of the policy
- The Company should be informed of the Critical Illness preferably within 60 days of diagnosis of the Critical Illness
- The Rider Life Assured should be alive for at least 30 days from date of diagnosis of Critical Illness for the benefit to be payable
- The Critical Illness benefit shall be payable only on confirmation of the diagnosis by a registered Medical Practitioner appointed by the Company or a competent Government Medical Practitioner and is supported by acceptable clinical, radiological, histological and laboratory evidence
- If the Rider Life Assured is diagnosed as suffering from breast cancer as defined above on "Reconstructive Breast Surgery", and the same is intimated to the company within 30 days of diagnosis an additional benefit amount of 30% of the Rider Sum Assured will be payable to her for Reconstructive breast surgery. This payment will be made on the diagnosis of the breast cancer and it being confirmed by an oncologist supported by surgical, clinical, radiological, histological and laboratory evidence acceptable to the company

Exclusions

The critical illness benefit shall not be paid in case of the following conditions:

1. Any of the listed Critical Illness conditions where death occurs within 30 days of the diagnosis.
