10%	15%	25%	25%	50%

The contract terminates on maturity.

After the contract has been terminated or surrendered the company shall bear no liability to pay any benefit.

Bonus

- a) Reversionary Bonus: At the end of each financial year the Company shall declare a rate of reversionary bonus expressed as a percentage. This percentage shall be applied to the sum assured plus existing declared reversionary bonuses to determine the amount of reversionary bonus to be added to the policy at the year-end. The reversionary bonus is payable at maturity or on death.
- b) In the event of a claim by death or maturity part way through a financial year or before the valuation result is declared, an interim bonus will be payable as per the actuaries recommendation.
- c) Furthermore, on death after 15 (fifteen) policy years or on maturity, the company may pay terminal bonus for in force policies.

2. Payment of Premiums:

- (i) Premiums are payable on the due dates. However, a grace period of one month not less than 30 (thirty) days shall be allowed under any circumstances whatsoever. If the death of the Life Assured occurs during the grace period the benefits payable on death under this Policy shall be paid after deduction of the premium then due.
- (ii) Premiums shall be payable on the due dates within the grace period allowed without there being any obligation on the company to notify the Life Assured / Policy holder of the due dates. Where the premiums have not been paid on the due dates or even during the grace period, the Policy shall lapse, except those as given in paid up value.

3. Non-forfeiture:

In the event of nonpayment of premiums due under this policy within the grace period the policy will continue in paid-up form provided that at least 3 (three) full years' premiums have been paid and the policy shall also acquire surrender value.

4. Surrender Value:

A policy accumulates surrender value only after the payment of premiums of three full years. The surrender value will be calculated by applying a surrender value factor to the paid-up value including accrued reversionary bonuses. The guaranteed minimum surrender value in case of surrender before the first survival benefit is 30 % of all premiums paid excluding the first year premium and the premiums for all additional benefits. The guaranteed minimum surrender value in case of surrender after the first survival benefit is 30 % of all premiums paid after receiving the latest survival benefit excluding the premiums for all additional benefits. After a policy has been surrendered the policy shall cease and all benefits and additional benefits shall cease.

5. Paid-up Value:

Paid-up value will be available, if premium payment ceases, after 3 full years' premium are paid. A paid up policy is not entitled to the original benefits mentioned in the policy conditions. The sum assured would be reduced by a factor equal to the proportion of the number of premiums paid corresponding to the total number of premiums payable, called hereinafter as reduced sum, and from this amount the amount of survival benefits paid, if any, will be deducted. The vested bonus as on the paid-up date remain attached to the policy. A paid-up policy will not accrue any further bonus.

In case of death, the reduced sum and bonuses vested upto the paid up date is paid.

No further survival benefit will be payable.

In case of survival to maturity, the reduced sum and vested bonuses as on the paid-up date is paid at maturity.

If a paid-up policy is surrendered, the value will be calculated by applying surrender value factor to the reduced sum and vested reversionary bonuses upto the date of being made paid up.

If the paid up sum assured, including bonus, is less than Rupees 100 (one hundred) the policy will be terminated and the surrender value will be paid to the policyholder.

6. Non disclosure:

In case of non-disclosure or fraud or misrepresentation in any document leading to the acceptance of the risk, the company may at its discretion repudiate the claim, subject to Section 45 of the Insurance Act.
