- c) During periods of extreme volatility of markets during which Surrenders and Switches would, in the opinion of the Company, be detrimental to the interests of the remaining Policyholders.
- d) In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.

It is further provided that the assets of each Fund may comprise such proportion as the Company may determine including un-invested cash or any other assets whether or not this produces income.

- ii) All assets relating to the Fund shall be and shall remain in the absolute beneficial ownership of the Company. There is no trust created, whether expressly or impliedly, by the Company in respect of the investments in favour of any person.

- ii) The Mortality Charge will be calculated by the Company at the rate as applicable to the attained Age of the Life Assured on the Policy Commencement Date and each annual anniversary of the Policy thereafter and deducted, at monthly intervals in the subsequent 12 month period, through the redemption of units at the prevailing Unit Price on the Policy Commencement Date and on subsequent Monthly Due Dates whilst the Policy remains in force. In the event that the units are held in more than one Fund, the redemption of units will be effected in the same proportion as the value of units held in each Fund under the Policy. If the value of units in any Fund falls to the extent that it is insufficient to support the proportionate monthly charges, then the same shall be deducted proportionately from the value of units of the other Funds.

If in the opinion of the Company, the exercise of any transaction by Policyholder at a Unit Price determined by the procedures given herein above in Section 1, would be materially unfair to the remaining Policyholders, then all transactions to and from such Funds would be suspended for upto 30 days to allow the transactions to be exercised at a Unit Price that would not be materially unfair. The deferment of transactions will be subject to prior consultation with IRDA. If the Company defers the transaction, then the Company will use Unit Price of the day on which the transaction actually takes place.
